

The RBI-approved Credit Skills for Bankers Certificate programme leverages Moody's global expertise in credit and is specifically designed for India's banking context, covering the foundations of retail and SME credit management. Moody's CSBC is the gold standard in credit certification. Certified professionals are recognised as being proficient in credit analysis and able to assess borrowing requests as well as ensure prudent risk mitigation.

Programme Overview

Moody's CSBC provides a sound grounding in credit principles as well as in applied credit skills. CSBC is best suited to bankers involved in SME and retail credit functions.

The CSBC programme helps enhance the quality of SME and retail loan appraisal/underwriting, credit need assessment, and loan monitoring, including early identification of problem credit and recovery. The programme also covers key legal and regulatory aspects related to lending in these segments.

Candidates are awarded the CSBC certificate once they complete the two levels of the programme and pass the certification exam.

Who Should Enrol?

All professionals involved or aspiring to be involved in any aspect of SME credit, including such functions as client sourcing, credit underwriting and credit monitoring.

Programme Benefits

UPON COMPLETION, YOU WILL:

- Understand and apply the techniques required to conduct effective due diligence before making credit decisions for SME and retail loans.
- Conduct a structured credit analysis and apply the appropriate loan assessment methodologies to underwrite credit.
- Conduct high-quality financial statement analysis and assess key cash flow, liquidity and solvency metrics to determine repayment capacity.
- Understand how to monitor the loan portfolio and identify early warning signals as well as take appropriate measures to remediate and undertake efficient recovery procedures.

LEVEL 2 Skills Application Course

Level 2 comprises simulated exercises to hone the practical application of concepts covered in Level 1, using real-life case studies and credit lending assessment scenarios. The case studies cover varying scenarios of SME companies in manufacturing and trading entities across diverse industries. These interactive simulations are aimed at strengthening on the job performance by providing candidates with realistic lending decisions they would expect to encounter in their day-to-day jobs.

CASE STUDY SCENARIOS WILL BE USED TO BUILD THE FOLLOWING CAPABILITIES:

- Be able to undertake comprehensive risk analysis using a structured framework to evaluate business, management and financial risk of SME borrower.
- Be able to assess the right level of short term working capital as well as long term capex financing requirements using applicable methodologies and tools (CMA formats etc.).
- Be able to present the appropriate loan/facility structure aligned to the business operating cycle and propose adequate risk mitigation through security collaterals and covenants.
- Be able to assess the repayment sources and capacity of the borrower by assessing his key cash flow drivers.
- Use a structured approach to identify early warning signals and minimize problem loans by ensuring that all appropriate steps are taken on a timely basis to avoid credit deterioration.

The combination of both Level 1 and Level 2 courses support the overall development and continuous improvement of your staff, helping them reach a level of credit sophistication that is relevant to the market. Upon completion of Level 2, the learner will be eligible to register for the proctored certification exam.

Why Choose Our Certification Programme?

1
